

WARNING:

You Can Save Your Home, But You Must Hurry

Stay in Your Home

We have a special program that if you qualify you can stay in your home...even if you have no equity and owe large arrears.

Sell Your Home Fast and Get Lots of Cash

A conventional buyer will take at least 4 to 6 weeks to close...assuming you can find one. We can buy your house and close in less than 24 hours with no closing costs, no commissions, no fees and no realtors.

If you have a large amount of equity we can pay the arrears, put up the money for any repairs to get your house into "quick sale shape", sell it fast and give you lots of cash.

Even if you have no equity we can probably get you cash. This sounds impossible but it's our specialty.

Refinance Your Home

If you are behind on payments, there are only a handful of mortgage brokers in the nation that are willing and able to help you. We have access to these prized few and we can refer you.

Get a Cash Loan

If you want to stay in your home and you need some cash to make up the back payments, we have investors who can help.

Repair and Rebuild Your Credit

Bad credit is very expensive. You'll be forced to pay high interest rates and put at least 20% down payment on your next home. After 26 years of searching, we have found a true credit repair company that can clean you up to an "A" credit rating in less than a year.

Buy a New Home with Instant Equity

We sell all our homes at least 5 to 10% below market. As our client, when you are ready to buy your next home we give you first right to any of our large inventory of homes we sell each month. This means you can get a new home with equity already there. Many of these homes are offered with NO BANK QUALIFYING, which means you can buy it without begging a bank for a loan.

The Truth According to the Clients

Saved from Bankruptcy and Cleaned Credit

You guys are great. I was in Chapter 7 and you saved the day when you bought my house. Then you helped me to get a new loan and a brand new house with no money down or out of pocket.

You hooked me up with your credit connection and got my credit fixed. **The credit repair company was actually able to get my chapter 7 taken off in 8 months!** I now have "A" credit and I've refinanced four times since. I can't say enough good things about you. Thank you a million times.

Paul Hague, Kent Washington

\$40,000 Cash and You Handled it All

When we met I had been trying to sell my home for 2 years. You bought it one day, demolished it, put up a new one and sold it. Best part was **I got \$40,000 in my pocket.** You guys are miracle workers. Thanks so much for making a bad situation good.

Doris Tejano, Roy, Washington

From Skeptical to Raving Fan

Thank you so much for saving me from foreclosure. I was just a week away from the sale date and you swooped in like a knight in shining armor. The best part was, after you poured over \$40,000 of your own money into the place and sold it, **you were kind enough to give me \$10,000.** All this in less than 90 days. I was skeptical at first and many of my friends advised against using you, but I'm so glad we did. I never would have been able to do what you did. I strongly recommend your services to anyone in a stressed out selling situation.

Made a Complicated Issue So Simple

We just want to say thanks for helping us out of a jam. You were great. **You explained everything** very well and we felt relieved that we would not have to go through foreclosure on our house and ruin our credit. We found a new place to live and we look forward to getting back on our feet soon.

We strongly recommend your services to anyone who needs to move fast. You took care of all the details. All we had to do was move out. You made complicated issues so simple. Thanks again.

A great Weight Off My Shoulders

I just want to say thanks so much for your recent help. I was in Chapter 13 and struggling. **You bought my house and what a relief.** It was as if a great weight was lifted off my shoulders. No more house, no more problems. Thanks again.
